FINALLY, APA makes SENSE!!!! For anyone writing papers, this is a MUST!!! It's easy to read, clear, and has great examples and has everything you could ask for and more. It puts Purdue OWL's website to shame.

My husband and I are in graduate school and we use this every time we write papers. It is very easy to navigate and the quality of information is bar-none. It is worth the price, trust me! You definitely need this for school or work if you have to write in APA format. Not only is it good for guiding you through citation, but it also has writing technique and writing style guidance - it will help you if you struggle writing in passive voice or making long sentences. Great manual!

Everyone must have this. It is my new bible when I'm writing a paper. So easy to use. All the information you will ever need.

One out of four isn't bad. This is one out of four books I've purchased that I needed, liked and was not a hassle. Just what I needed.

Great little manuel to carry with me and refer too. Easy to find information.

A must have for writing in college. It improved my grades from. B- to A

I found this very useful and I highly recommend it to everyone.

It's the textbook I needed and came very quickly. Nuff said...
