American National Biography (American National Biography Supplement)

Synopsis

Told more as stories than history lessons, the biographies in American National Biography Supplement I recount the tales of all the different people who shaped America--leaders, composers, entertainers, entrepreneurs, writers, scientists, and outlaws. Each one written by an expert in the field and masterfully woven together to present the most accurate and up-to-date information, the entries bring forth a powerful narrative of America's past and some of the most important figures that went into its formation. As the first in a series, ANB Supplement I extends the coverage from the original ANB to include notables who died prior to the end of 1999. This adds another four years of captivating history to the original 24-volume print edition's cutoff date of 1995. Among the biographies in the Supplement are articles first published in the ANB Online. The result is hour after absorbing hour spent exploring the dance of Gene Kelly and the music of Ella Fitzgerald along with the lives of Revolutionary War General Peter Gansevoort and literary scholar Fredson Bowers, among many, many others. With over 400 new listings, bibliographies after each entry, and a cumulative revised index of occupations and realms of renown, the Supplement continues the ANB tradition of bringing the people who have meant so much to this country to the forefront.

Customer Reviews

This set is designed as a successor to the venerable Dictionary of American Biography and it

achieves its goal. Except in cases where one is doing substantial research on a historical figure, the entries here will be all that is needed. It is the high quality of the contributors that make a reference outstanding and these scholars, unlike most internet contributors, include useful bibliographies with the entries. There is always a quibble. Some subjects included in the Dictionary have been dropped and sometimes the omission is unfortunate. William Chapman Ralston, an important Californian and one of history's most interesting bankers, comes to mind. Nevertheless, this is an outstanding reference.
