The New Dynamics Of Multilateralism: Diplomacy, International Organizations, And Global Governance

Synopsis

This timely new book focuses on the various dynamics of contemporary multilateralism as it relates to global issues, global governance, and global institutions. Invited authorities, including academics, business people, and members of international groups, contribute original essays on how multilateralism as an institution has been affected by globalization, the rise of civil society and global business, emerging economic and political conditions, and new threats to peace and security in the world. Emphasizing practical applications over theoretical foundations, *The New Dynamics of Multilateralism* helps students understand how the practice of multilateral diplomacy has been influenced by the changes in the processes and procedures of international organizations and the role of multilateralism in the transformation of the international system of governance and the transition to an emerging new global order.

Customer Reviews

The New Dynamics of Multilateralism: Diplomacy, International Organizations, and Global Governance is packed with essays from scholars and practitioners who consider how global issues and institutions are changing the nature of diplomacy. Academic, business and political leaders alike contribute different focus to this survey that considers theory and applied results and provides a global examination of multilateralism as an institution affected by globalism.

This book offers new insights into the subject of diplomacy from a multilateral perspective. The world system is full of issues that must be resolved, and this book gives some potential roadways for doing that together with others.

It helped me get through the class thus far, I'd give it a thumbs up. I suppose it is just the fact that it was assigned reading that makes me look at it as more of a textbook than anything.

This is one fine book that impressively covers the concepts of multilateral diplomacy.
