Customer Reviews

I like this book very much-informative and great pictures. Small and concise, it offers good, basic information. It lacks extended details on each stone, but is an excellent overview, and the pictures do much to help identify any stones that you may be unfamiliar with.

Excellent Book, very practical in using for everyday life! Also includes combinations (Crystal Cocktails) and a useful glossary for quick reference of crystals including chakra alignment and star sign. Beautiful and clear pictures for those new to Crystals :) It is a must have!

It is very informative book with lots of nice colourful pictures of crystals. It is well written and well

presented. I have recommended this book to all my friends and family. Well done Golnaz , I am looking forward to your future books

This was recommended to me & I'm so glad. I have one book, but this one is more visual. You can get a lot of info easily ~ and the crystals are grouped in orders that 'make sense.' PLUS.. you get a glimpse at some you might not be familiar with~

very informative

Super informative! This included much more than I imagined. Covered all the bases on this one!
