Customer Reviews

Smart succinct advice and reminders for not just dealing with but preventing bad toddler behavior. The book is short, which was nice. I read it during my daughter's nap. Some of the points in the book are things you may know, but the book gives thoughtful ways to apply them to tantrums.

This book is an ideal one for them to read in their fully scheduled lives. This book reveals that how parents deal with tantrums has long-term effect on a child's development. The ideas are based on a large amount of scientific research, yet put in a simple, easy-to-follow framework with step-by-step advice for frustrated parents. It also helps parents to understand their kids' tantrums by seeing things from the kids' perspective. I find the book to be tremendously helpful in helping me understand my little one and deal with her tantrums in a firm yet loving manner.

Comprehensive tips for parents!

I read this in about 5 minutes. It was just short blurbs and sentences. Didn't help one bit. Not even evidence based, just short opinions.
