Customer Reviews

Makes a really reference books. Love it!

It is a hard work trying to understand the concept of Hinduism, if at all possible, but it gives an interesting insight of the belief and culture of India

Best book for our little people, by reading this book, they will understand how to be able to care about each other and try and give love and respect.

It's a nice little synopsis of Hinduism, although the author does take a few unneeded jabs at the Christian faith.
