Synopsis

Discover How To Save Your Marriage And Reignite Those Same Feelings That Once Brought You Both Together This book will teach you the same proven strategies that professionals use around the world to help bring couples back together again. Marriage is not always an easy relationship to be in, there are many ups and downs. Over time, the feelings of love and admiration that a couple once had for one another can slowly fade away and even vanish completely. At this point, frustration usually sets in and that's when the problems start. However, those feelings that were once shared by the two of you can be revived rather easily with the right mindset. All it takes is an open mind and the proper guidance and your marriage will be back on track, full of love and happiness. I wrote this book to help couples rescue their marriages before it's too late. The strategies and techniques found in this book have helped hundreds of couples around the world, and they can most certainly help you too.

Customer Reviews

Awesome! This book opens your eyes to what is really going on in your relationship. It helps you focus on how to repair it, which is exactly what we need. We tend to just focus on what is going wrong and all the problems but miss the lesson on how to make it better. Alexis does a beautiful job helping us with exactly what we need! Really worth reading book!

Love is why people unite and get married. But as time passes by, some couple grow apart and find out their differences. Some work it out while some don't. That's why most of the couples today just resort to divorce and end up hating each other. When I read this book I was introduced to a lot of reasons why marital problems exist. I wish couples who drifted their ways apart have known this book and found out the solutions on how to rescue their marriage. I love how the author relate every section to couples' concerns. He has examples which makes everything clearer. I hope he could reach and help more couples. Highly recommended:))

Conflicts are common in marriage. However happy we are, we will have conflicts with our partner due to various reasons at some point of time. What I understand from this book is, there are different ways to handle these conflicts and I got many tips to handle these conflicts very nicely. I was reading this book as checklist to analyze my behavior with my partner. Though you have conflict or not, this is the must read book for couple. Without knowing, we make many mistakes and this book made me to realize those. Highly recommended to every couple.

I picked up this book based on a recommendation from a friend and I am very glad I did. It's a quick book and it got right to the point (avoiding any excess or unnecessary filler) and gave helpful and immediately useful tips on everything from talking a problem out to choosing a therapist. For a subject that, in and of itself is not easy to deal with, the material is quite clearly written and organized so it can be understood and put to use right away. If you've read this far, just buy the book and read it. You won't be let down.

After marriage, there are so many couples who face some type of adjustment problems. There can be some type of conflicts which arise after marriage. This book provides some very useful and

effective tips on how you can overcome these conflicts and save your marriage for a lifetime. A good oneâ |

Conflicts are part of any relationship. No matter how big or small a conflict is, it's important that you know how to settle conflicts and prevent even bigger problems such as separating ways with your partner. This book includes tips and strategies on how you can solve conflicts with your partner. The book also discusses traits you need to develop in order to have a lasting relationship such as having an open communication, respecting each other differences, trust, and much more. I recommend this book to couples who are having troubles with their marriage. Also, newly wedded couples can also benefit from the book by knowing in advance how to settle conflicts before conflicts begin to arise later in the marriage. Couples who are not yet married but living together can also benefit from the book.

Alexis G. Roldan explains us why there might be conflicts in your marriage, how resolve them and save your marriage and he describes the importance of love, respect, commitment and communication in marriage. We can look back at marriages that last 30, 40, or even more than 50 years, and we cannot find a perfect marriage. When you find a problem in your marriage, take time to discuss it, and then take time to think of reasonable solutions to the problem. There are plenty of tips and suggestions to get a marriage on a happier path. This is a rewarding guide that can actually help you rescue your marriage.

To choose â ^marriageâ ^™ as topic for any book is no doubt one of the most beautiful choices to make yet ironically one of the toughest issues to talk about. And I truly salute Roldan for doing such a brave step to have talked about marriage. It might be todayâ ^™s clichÃ© to say that falling in love is easy, staying in love is hard. But I would say, this is the truth that has been tested over time and is still true today. When we said â ^I doâ ^™ to our spouses, we meant all the purity in the world, I should say. Neither of us would even say that and plan to betray our own vow. But as difficult as life, marriage isnâ ^™t always a bright-lighted tunnel. There will be too many ups and downs after the honeymoon stage. There will be times when we think we are just holding on a thread and not on a firm rope. But even with these realities, I believe that marriage is one of the best things in the world. And I just love how this has been presented in this book. I just realized especially after reading this book that there are things I need to unlearn so I would be able to see a more beautiful perspective of communication, conflict and even love. I believe this book is such a treasure for couples who

want to keep their marriage happy and strong. Thus, this book is such a very good material for a fireproof marriage!
