Star Warrior's Mate: A Scifi Alien Romance (Star Warrior Book 2)

Synopsis

Taken and bonded to an alien general. Taken to his home world. Hunted by a mad emperor. It's all in a day's work for a captain in the Combined Interstellar Fleet! Talia was in trouble. Taken captive on an alien world by a man she should hate. A man she can't get out of her head. A man she finds herself falling for, and it doesn't help that his thoughts are stuck in the back of her head since they underwent a strange alien bonding ceremony! Caught between her feelings for her alien lover and her loyalty to humanity. What's a girl to do? Jorav was torn. He couldn't get Talia out of his mind. Literally since the emperor bonded them and created a psychic link that had never been successful between human and Livisk. Only it worked this time, and now the emperor has both of them in his sights after his first attempt to kill them didn't work out. Jorav will have to decide if his loyalties are with an emperor who's trying to kill him or to the woman he loves. An impossible question after a lifetime serving the throne! Two warriors thrown into an impossible situation. Two fighters who find their old loyalties crumbling the more time they spend together. But will they be able to break free in time to save themselves and their love? Find out in Star Warrior's mate! Book two of the Star Warrior series!

OK, I got started on book 2 which was like missing the first 5 or 6 chapters of the book. Even when I had figured what most of the first book was about, the storyline seemed to drag. So, I skipped around (not an easy feat on a Kindle) and found some more interesting parts. But even those were few and far between. Finally, the story started to get interesting, the book ended. The heroine was a bit, no a big, smart mouth, with a hero that I was having a hard time getting into. The storyline was a bit old with little to make it different. So, if you don't mind having to buy several books to read the beginning and end of a short story, This one's for you.

This is a scfi story that picks up after Tabia and Jorav have mind linked and entails their struggles with adjusting to their relationship and conflicting loyalties. It was fun reading how they evolved to a committed couple with shared goals. The author did a great job of describing the world of Livisk and the conflicts within the society. I appreciate the strong character of Tabia though sometimes she was over the top but that just made her more interesting. Jorav is a strong, moral character that Tabia keeps surprising and he clearly respects her. The character development was well done and I am anxious to read about how they continue evolve and the chaos that I'm sure will follow in their wake. I liked that they were stronger together. Highly recommended this series--can't believe the low price. This is a new author that I am now following.

This is the second of a series it is a great book am getting ready to read the Third Book. This is the case of two races that are trying to destroying each other . The Commander of the humans had destroyed the planet that the General of the other species that killed his wife and the Emperors wife. The General was demoted because he lost that battle and the Commander was demoted for losing her ship. They meet in battle 2yrs. Later and she is captured by the General. They become bonded by the now ruling cruel Emperor. The binding should have killed the female human. This be sure and read these books in order .They are great.

This is the second book in the series and I love it! C.F. Harris does an excellent job of bringing the alien world of Livisk alive in great detail. The story is intelligently written, and the banter between Talia and Jorav is sarcastic and funny. Both heroine and hero are strong in their own right, but even better when they come together to take on their enemies.

This series seems to be improving as it goes. It's original and well planned. The alien culture immersion really adds to this romance. The editing is improved in book two. I'm still having trouble

with the current day dialogue slipping in randomly, even from an alien who's never been to Earth. It's hard to reconcile the clash of present with future.

This is the second story in a series and it just keeps getting better. Interesting world building, fun interactions between characters from two different species who are trying to understand one another... Talia and Jorav were thrown together by conflict, and the more they learn about one another, and from one another, the more I enjoy the story as it leads to interesting situations, and provides a reminder that another perspective can be valuable. I was gifted with a copy of this story, and switched to the Kindle Unlimited version when it was published. I am looking forward to the next story in the series, as Jorav's homeworld has no idea what Talia is plotting.

I was given this book for free in exchange for an honest review, however I was already following this author and loved the first book so being asked to read and review the next was a no brainer. I loved how the characters have been fleshed out more and have grown together, they are both strong in their own right yet have to give a little to see each other's position. I am definitely looking forward to the next book to see where their relationship goes and how the world around them changes. I am giving this book 5 stars simply because once I picked it up I read it till the end in one sitting and enjoyed the whole experience. I would recommend reading the first book before this one but honestly reading book one in a series first should be a given ^ So enjoy!!

I liked this. Started on the first one. The worst part is the serial nature of the book. I really hate waiting for the next installment. I read a great deal, and by the time the next installment comes out (if I even remember to get it) I need to start over at the beginning. Aside from that, It was pretty good. The only thing I had a hard time with was that he did not harbor more animosity toward Talia. If you suspend belief on that front. The story was enjoyable.
