Customer Reviews

I noticed that another reviewer made the claim that this is Bobby Akart's best book. I agree, but don't sing his praises just yet. There is more to come as each volume gets better and better. His previous two books are filled with matters that are not only ripped from today's headlines, as the saying goes, but matters that happened after the books were released for publication. A little scary, huh? I want to know where Bobby is hiding that crystal ball. As predictions go I'm hopeful that Martial Law doesn't become tomorrow's headlines, just yet. I'm not fully prepared and have much to do. Bobby Akart has spent his time and put forth much effort to inform us of preparedness methods that are an easy thing to follow. Taking full advantage of Bobby's knowledge of how to prepare is in my plans for tomorrow. Don't be fooled into thinking that Mr. Akart only writes books of instruction. From the opening scene at 73 Tremont--Boston, Massachusetts, (John Morgan's headquarters,) you will find Martial Law packed with non-stop, heart-pounding action as TEOTWAWKI takes America by surprise. As the master puppeteer pulls his strings we watch with growing fascination as he manipulates the strings of humanity. But wait! Has the master overlooked a tidbit of data? An important bit of happenstance that could turn John Morgan's world into his own tragedy has slipped his mind. His only child, his legacy, his daughter, Senator Abigail Morgan is out of pocket when the lights go out. As a man of perfectionism one would think John Morgan would have all bases covered and all ducks in a row before pulling the final plug. But we see John almost panic when he realizes his daughter is on the campaign somewhere in Florida.
