The Emerald Tablet Of Hermes & The Kybalion: Two Classic Bookson Hermetic Philosophy

Synopsis

The Emerald Tablet of Hermes first appeared in the Alchemical Libraries of Europe during the 12th Century. Traveling home with the Crusaders, this seminal work is alleged to be written by Hermes Trismegistus-Thoth. The work deeply influenced Western Magick, and the tenets presented influence modern magick to this day. The Kybalion was first published by The Yogi Publication Society of the Masonic Temple in Chicago in 1912. The authors of The Kybalion chose to remain anonymous, because the principles and philosophy are a summation of the Timeless Wisdom and Truth of the Hermetic Philosophy.

This work actually makes little or no sense unless you know the codes and the metaphors - and anyone who does isn't admitting it, not that I know of. Do you? The Emerald Tablets and the Hermetica are entirely written in coded metaphors. For instance, God is the thesis or the creator, Kosmos the antithesis or the destroyer, and Space the synthesis between the first two or the preserver. They are a kind of metaphysical and dialectic version of topological triangulation. This is paralleled in the doctrine of the Trinity. Each vertex may also be described geometrically as a set of functions or their opposites. The Hermetica is really coded physics - and not the physics conventionally taught in our schools and universities but rather a hidden physics. I myself have not learned much more than this very basic and simplistic code for a small part of the Hermetica. I also know there are at least 3 levels: the topological metaphor of the physical (deepest), the physics metaphor of the emergence of creation (less deep) and another physics metaphor of the

astronomical machine of precession (least deep). If anyone reading this knows more, or can direct us as to where to find more decoding, please add a comment to this review (there's a bit in Farrell's book "The Grid of the Gods"). Farrell's "Cosmic War" traces a cluster of names from ancient Mesopotamia and Egypt that are the same entity as (or very closely related to) Hermes-Thoth including: (An)Zu, Ninurta/Nimrod/Ninus/Enmer/Emerkar, Marduk/Merodach, Nergal, Baal/Osiris/Tammuz/Adonis/Dionysus/Bacchus, Enki/Ea/Eyah/Yahweh/Lucifer/Ra/Sungod/Lightbearer and even the Mason's Hiram Abiff. [Later note: Farrell's "Thrice Great Hermetica" provides even more insight into Hermetica.
