The Forgotten Soldier: A Pike Logan Thriller

Synopsis

In New York Times bestselling author Brad Taylor's latest heart-stopping thriller, Pike Logan returns with his most dangerous and personal threat yet: a Taskforce Operator gone rogue. For years, the extralegal counterterrorist unit known as the Taskforce has worked in the shadows, anticipating and preventing attacks around the globe. Created to deal with a terrorist threat that shuns the civilized rule of law, it abandoned the same, operating outside of the US Constitution. Though wildly successful, it was rooted in a fear that the cure could be worse than the disease. And now that fear has come home. A Special Forces soldier is killed on an operation in Afghanistan, and complicit in the attack is a government official of an allied nation. While the US administration wants to forget the casualty, one Taskforce member will not. When he sets out to avenge his brother's death, his actions threaten to not only expose the Taskforce's activities but also destroy a web of alliances against a greater evil. Pike Logan understands the desire but also the danger. Brought in to eliminate the risk, he's now forced to choose between his friend and the administration he's sworn to protect, while unbeknownst to either of them, the soldier's death is only the beginning. . . .From the Hardcover edition.

Customer Reviews

In a heavy-duty fight in Afghanistan, Guy George's brother, Sgt. First Class Timothy George, is killed. It turns out that Guy's brother was searching out terrorists but did not anticipate that they would get to him first or why. Guy receives the material remains of his brother and his entire perspective changes when he finds the pictures of four of the men who were the objects of his brother's search. Guy realizes these were the men who directly or indirectly are responsible for his brother's death, and Guy's rage is palpable even to the reader. Guy belongs to a Task Force that is off the record but approved by a Committee of upper echelon government players, including the President. The Task Force includes Pike Logan, a friend and brother, not by blood but by the bonds formed to protect and honor each member of the Team. After talking it over with his Team, Guy realizes that his brother is just another casualty and the American government couldn't care less. Indeed at a meeting of this Committee, the players on Guy's Team realize a very harsh reality, several realities in fact. Greece is collapsing and the rescue of the Euro is paramount to worrying about a fallen soldier! In fact, there are political machinations occurring, including betrayal by an American Senator. No spoilers here but no one anticipates that Guy is about to go rogue and an Arab business owner, needed and used but not connected to Arab royalty, tied to his government will go to any length to guarantee their mission which is far from innocent. Will he succeed or be denounced and perhaps assassinated himself should he meet failure. The threats and dangers are vividly obvious!
