The Book Of Shadows: White, Red And Black Magic Spells

Synopsis

I compiled this Book of Shadows from a collection of spells I have been using since I started down my path. This book contains over 100 spells and a list of runes and how they can be used in spell casting and even crafting your own spells. I've collected these spells from several different sources, mostly from witches I have met in my travels and covens I have been a part of. The White magick spells in this book can mostly be used without much hesitation but make sure you have good reason to use any red or black magick spells as The Three-fold law does apply to everyone whether you believe it or not. I've tweaked a few of these spells to fit my needs from time to time and you can do the same as the words aren't what give the spells power, your energy is what really matters, so feel free to do the same and change what you want to suit your own needs. The craft of Magic is a constant fluctuating living thing and our ancestors have borrowed, changed, and made from scratch what we practice today. I hope this book helps you grow as a person and a spellcrafter :)

Pretty well written book. The spells are interesting and fun to go through. I'm pretty new to the world of spellcrafting, and I found this to be simple to grasp. There were a few I was familiar with from my studies, but also plenty of content that was new to me. I like some of the modifications the author has made to some of the more common spells. I feel more energy using these versions than I did with the original incantations. Overall, a great read to add to your collection as you grow in your knowledge of the arts.

I've learned a few of these spells from my own journey but this had a lot of awesome stuff I've never seen. I love the fact she put it up for free for Kindle Unlimited! :)

Very informative! I'm a beginner and I've read other books but one of my older mentors in the craft recommended this book and a few others.

Great starting spell book. Well written, clear and fun!
