Wiccapedia: A Modern-Day White Witch's Guide

Synopsis

Now in a new, hipper, edgier format, Wiccapedia provides a fresh, innovative, and thoroughly up-to-date look at witchcraft and gives readers a prescription for happiness. Spiritual life coaches and celebrity witches Shawn Robbins and Leanna Greenaway unlock the secrets of the Wicca universe, explaining what it means to become a simply fabulous twenty-first century witch. Newfound witches and even more experienced ones will learn how to tap into magic, re-empower themselves, and realize their dreams through a little witchy know-how. With its stylish redesigned interior, Wiccapedia is better and giftier than ever!

Customer Reviews

I recently came to look into this book after one of the authors started spamming a Pagan forum with advertising this book. She came onto the site, advertised, and never answered a single question that was asked of her. All of her responses were basically, "Well if you just buy my book..." which was very shady. If you're serious about learning neo-Wicca and such, please look elsewhere. Thea Sabin or Amber K. are good ones to start with. Wiccapedia does not have accurate information, and is just a bunch of glitter and nonsense. Their use of "white witch" and "angelic Wicca" are prime examples of inaccuracies. I can't believe I'm saying this, but this is worse than the garbage Silver Ravenwolf writes. Shawn and Leanna obviously have no idea what Wicca actually is and they have no right to publish material about it. If you want to be taken seriously in the Pagan community, skip over this. You won't learn anything valid. The authors have made it clear that they think the witchcraft

community is stupid enough to buy into this. You do NOT want to be labeled a "fluffy bunny" in the pagan community. Save yourself from being harassed and learn from more credible sources. The criticism is harsh, maybe, but if you're dedicated to learning it will only help you grow as a person in your spirituality. You'll get respect and people will actually listen to what you have to say if you are able to back up your claims. This book will not give you the tools to gain respect, or to help you to grow in any form of religious witchcraft. It will only fill your head with lies, all so the authors can steal your money. Don't be taken advantage of!

This is the first book I ever read about wicca and it definitely got me going to figure out more. For people that already know about wicca, I'm not sure this book is really for you. However, I found it useful as I'm just getting started. It touches briefly on a lot of different topics like ouija, spells, crystals, herbs, animals, dreams and so on; as a result I have an idea for other things that I want to find out more about. I recommend this book, its easy to read and keeps you interested and it looks nice too.

I'm very happy to have bought this book! Although I'm not brand new to Wicca, I found a lot of value in reading this information in an organized, concise manner. Many of our favorite Wiccan authors can be kind of verbose and in my experience, don't put a lot of effort into structuring the information in a clear manner. I would recommend this book as THE first book to anyone interested in learning more about Wicca. I'd also recommend it to anyone looking to fill in any gaps or holes in their understanding of practice. It might not be for someone who's actively practiced for a long number of years, but I think there is valuable information in here, even for those who aren't brand new. The pages are nice and thick and the cover is beautiful. It's the most well-made Wicca book I've got and will hold up to being used as a reference. Would love to see more books from this author....perhaps expanding on what is included here.

Great book with some basic information. Focuses on Angelic Wicca, so if you are looking for a book that has more general information about the different sects, then this is not for you. However, it is beautifully bound and would look gorgeous on any bookshelf. It also does have some good information on other aspects of living with metaphysical practices, such as using crystals, herbs, practicing mindfully. Overall it is a great book, but remember it does focus on angelic wicca, not others.

One of the worst books I have ever seen on the subject in 12 years of reading about Wicca, witchcraft, and Paganism. There's nothing about Wicca in here. The authors actually use the term "white lighters" to refer to guides. If you are interested in Wicca, look elsewhere, because you won't find anything useful or accurate in this book. I am genuinely aghast to see the book averaging 4 stars here on as of the writing of this review. Better authors are Scott Cunningham and Doreen Valiente, and Janet and Stewart Farrar's "A Witches' Bible" is a great book on Wicca.

Perfect encyclopedia for any Wiccan, new or seasoned. Very helpful in many ways, and a wonderful author! Thank you MS. Robbins for writing this amazing book.

Wiccapedia is very well written , I love the design and the illustrations. This Hard cover is a great size that can be easily carried around with you and will fit into your pocketbook! Very informational and well thought out , I would highly recommend this for beginners and elders as well .A very helpful guide for a beginner to the Craft.I also love how the Authors have included their own personal experiences and thoughts.This book carries a lot of diverse subjects that you normally don't find in a beginners book , I love how it gets your feet wet into almost every subject . I can't wait to read future new books !!

This is such a great book! Very simple to read and explains things well. Very oriented around angels, but it's educational. Kind of feels hokey at times but it's content is wonderful. I would recommend this to beginners like me.
