I've been reading through this book for 2 years now and have found this translation of the complete 1701 Sepher Rezial Hemelach to be nothing less than inspired. This book is one of the most important practical Qabalah source-works and, just as importantly, has been translated by a practicing Qabalist. The very fact that this work, controversial in even the most mystical and secretive of Jewish Kabbalah circles for maybe 1000 years has finally appeared in English, is an astounding event in itself and should certainly to be explored. Why hasn't there been any Hebrew scholar in 300 years able to translate the 1701 edition? The answer is two-fold: 1) Apparently there

has not been (or it has not been allowed), else it would have been done. 2) The Book of the Mighty Angel Rezial is about the Holy Power of the Lord YHVH, as Infinite Creator (the NOT, the Indescribable), given to us to guide our way back to Eden (Heaven). The Sepher Rezial Hemelach belongs with the most mystical of all holy books because it dwells (teaches us) from the true Inner School, the Inner Consciousness or Inner Source of Knowledge and Love. There have been many books written about Kabbalah which contain an abundance of dogmatic or complex explanations leaving most readers with a complex intellectual understanding rather than greater practical, spiritual experience. The Sepher Rezial Hemelach is a book from the other end of the spectrum, an ancient but powerful work to help us realize the quintessence of the Practical or Mystical Qabalah. (One can either read this book as an important historical document or read it as a set of instructions.

Finally after 300 years, this incredibly important text is finally available in an accessible version. I have searched high and low for this book, only to learn that it has never been translated into English (until now). I found that original editions cost as much as \$10,000.00, and those are in Biblical Hebrew, which as anyone who has tried will tell you, is extremely difficult to translate. This is the long awaited first English translation of this famous magical Hebrew grimoire text - a translation from the ancient Hebrew of the rare and complete 1701 Amsterdam edition. According to Hebrew legend, the Sepher Rezial was presented to Adam in the Garden of Eden, given by the hand of God and delivered by the angel Rezial. The myth suggests that this is the first book ever written, and of direct divine provenance. A diverse compendium of ancient Hebrew magical lore, this book was quite possibly the original source for later, traditional literature on angelic hierarchy, astrology, Qabalah and Gematria. Moses Gaster mentions this in his introduction to the Sword of Moses (1896) suggesting that the Sepher Rezial could be a primary source for many magic and qabalistic books of the Middle Ages. Sepher Rezial Hemelach is a compilation of five books, being The Book of the Vestment, The Book of the Great Rezial, The Holy Names, The Book of the Mysteries (Sepher HaRazim), and The Book of the Signs of the Zodiac. It includes extensive explanatory text on the holy names of God, the divisions of Heaven and Hell, the names and hierarchy of the angels and spirits, as well as symbolic interpretations of both the Book of Genesis and Sepher Yetzirah. It also includes material on astronomy, astrology, Gematria and various magical talismans, most notably those used for protection during childbirth.
