Customer Reviews

WW did it again. They came out with yet another gaming clanbook that just plain ROCKS. It's been said before that WW was losing it's touch but I must disagree...this is a must have for anyone who plays the game and especially those that play sabbat or Lasombra..It takes you into the world of the sabbat and the Lasombra. It doesn't touch on the antitribu but why should it? After all the main game resources even point out that in the WoD there are not many anti's of the clan...It's a great resource for young players and even those who have been around will enjoy reading this story...it takes you inside the mind of the Keepers and their shadows...what evil lurks? I urge you to read this chronicle and tell me just how frightened of the shadows you become..

This is one of the first clanbooks I read. It is also one of the most revealing. While the Lasombra are initially made to be a dangerous, yet one dimensional foe, this book clearly shows their true powers.

This is a excellent sourcebook, but its lack of comments in the Lasombra Antitribu keeps it from achiving 5 stars. At least, WW has corrected it by including that description in the new Guide to the

Camarilla.

an interesting take on the Lasombra, nothing really intriguing has been revealed except for their rivalry with the Tzimisce and an interesting take on their manipulation of the Sabbat.

This book must have been stored in a vault, there is nothing wrong with it. It was like buying first print from a store.
