Wilhelm Reich has a very powerful writing voice, it is forward and sharp. Getting to the point in a blunt fashion. It is a didactic read, and many of his ideas were ahead of his time. While some of his ideologies are outdated, he was a student of Freud, so it is remarkable that he has come to such modern thinking in the times when " Floating Ovaries Syndrome" was thought to be a disorder. If you don't get the jest read some Freud, then read Reich. To the people who are making Piezoelectric Generators and calling them orgonite, read this book, and stop embarrassing Wilhelm Reich.
