TechnoSmart Activity & Idea Book

Synopsis

This fun and thoughtful activity book can be used alone or combined with Julia Cook's technology-driven storybooks, "Cell Phoney" and "But It's Just a Game." As a teaching tool, it will help children increase their personal communication skills while teaching boundary recognition. It will also help them increase digital citizenship by teaching the etiquette of using technology effectively.

Customer Reviews

Don't like that it covers 2 books in one, because the activities don't necessarily cover both books, and both books don't apply to all of the kids I work with. All of the activities are already things that are available for free in online searches.

This book is a technology/classroom teachers dream. It has great stories that incorporate real life digital citizenship lessons. Julia is a mastermind of technique and application. I met Julia this summer at Reading Conference. She knows first hand what kids need to know and how to approach these topics. Buy this book. You will not regret it! Better yet, find where she is speaking and see her in person!
